New IDFPR CME Requirements for Practitioner License renewal: Opioid Prescribing and Sexual Harassment

Safe Opioid Prescribing Practices Continuing Education (CE) requirement in effect for all prescribers renewing in 2020.

Prescribers with Controlled Substances Registrations are required to complete 3 hours of continuing education (CE) on safe opioid prescribing practices to renew their Controlled Substances Registration. **This requirement can be included in the total number of hours required to renew a professional license.** This requirement will be in effect for all Controlled Substances Registration renewals in 2020 and after.

What professions are required to complete this CE?

This requirement applies to individuals that are prescribers under the Controlled Substances Act and have a Controlled Substance Registration. This includes the following licenses:

- Advanced Practice Registered Nurse, including Full-Practice Authority (309, 377)
- Dentists (319)
- Optometrist (346)
- Podiatric Physician (316)
- Physician Assistant (385)
- Physician (336)
- Veterinarian (390)

**This requirement only applies to individuals who have Controlled Substances Registrations.*

New Sexual Harassment Prevention Training Continuing Education (CE) requirement to renew licenses issued by DPR beginning January 1, 2020

A new law passed earlier this year requires sexual harassment prevention training for **all persons who hold a professional license** issued by the Division of Professional Regulation (DPR) for professions that require CE to renew. The law requires licensees to complete a one-hour CE course in sexual harassment prevention training and is effective for all renewals on or after January 1, 2020. **This CE requirement is included in the number of hours already required under the individual Acts and Rules and does not increase the number of hours required to renew a license.**
